

2022 LEAF COLLECTION SCHEDULE

Beginning Monday, November 7 weather permitting, the Street Department will begin leaf collection. **Residents are requested to rake their leaves onto the boulevard (NOT INTO THE STREET).** To increase efficiency, it is requested that residents rake their leaves into **longer and narrower piles**, rather than higher and wider piles. If the Street Department personnel see **sticks, tree limbs or trash** in your pile of leaves, they will NOT be picked up, as they will plug up and damage the leaf collection machine--the resident would then have to dispose of their leaves themselves. **The Street Department is requesting residents to NOT PARK THEIR VEHICLES IN THE STREET, during the hours of 7 a.m. until 4 p.m., until all leaves have been collected from the boulevard.** When vehicles are parked in front of piled leaves, the leaf collection machine cannot reach the leaves. As in the past, should the leaves get too wet, the schedule may be changed.
