

Drinking Water Service Line Material Reporting Form

The City of Bellevue is creating an inventory of what pipes are made of in the City's water system. Please identify the material of your water service line using the *Customer Guide for Identifying Service Lines* and report your findings using this form. We will use the information you provide to update our records and create an inventory that will be used to identify the types of service lines in our community.

If you have questions about what type of material is used for your water service line, please refer to the *Customer Guide for Identifying Service Lines* or contact us at 419-484-5520 or via email to: Brandon.Good@cityofbellevue.com

Also, please take a photo of your water service line and email it to us, along with a photo or scanned copy of the completed form at LCRI@cityofbellevue.com. The Form is required, the photo is not. If you do not have access to email, please drop off the completed form at the Utility Billing drop box at the City Centre, 3000 Seneca Industrial Parkway or mail to:

**Bellevue Water Plant
ATTN: LCRI
830 E. Center St.
Bellevue, OH 44811**

Account Number (if known):

Required information is highlighted in Red

What did you identify the water service line material as (i.e., the material of the pipe bringing water into your home or building)?

- Plastic – visibly white or gray.
- Copper – visibly the same color as a penny and a magnet did not stick to it.
- Galvanized Iron or Steel – hard to scratch with a key or coin and a magnet sticks to it.
- Lead – scratching with a key or coin results in a shiny silver line and a magnet does not stick to it.
- Cannot Determine
- Other: _____

What year was your home or building built? (estimated year if exact year is unknown)

Year:

Has your water service line ever been replaced? Yes No I don't know

If your water service line was replaced, what year was it replaced and what material was it replaced with?

If your water service line was replaced, was it a full replacement or partial? If you do not know, please state that as well. If partial, what part of the line was replaced?

Thank you. These are new EPA regulations and need to be reported by September of 2024. Thank you for your cooperation.
